The calculation of the estimated total undergraduate tuition amount is based on fifteen (15) hours per semester, which is an average course load. Twelve (12) semester credit hours per semester, however, is considered full time. The tuition amount will therefore vary depending on total hours taken per semester. At the stated per semester tuition rate, for a fifteen (15) hour course load, an undergraduate student would be charged tuition, exclusive of fees and other costs, of \$6,810.00 per semester.

The calculation of the estimated total graduate tuition amount is based on a student taking twelve (12) semester credit hours per semester, but will vary depending on the actual total course load per semester. A course load of nine (9) semester credit hours is considered full time at the graduate level. At the stated tuition rate for a twelve (12) semester hour per semester course load, a graduate student would be charged \$6,384.00 in tuition, exclusive of other fees and costs, per semester.

The tuition and fees listed with an asterisk (“\*”) are those charges that must be paid each semester. The Technology Fee of \$80.00 is designed to defray some of the costs of the University’s wireless network system and library computers made available to all enrolled students. The Lab Fee is applied each semester only to those courses which contain a lab component.

A Graduation Fee of \$200.00, as listed in the chart provided above, is to be paid by all graduating students when the student is within 15 semester hours of completing his or her degree program.

A fee of \$50, payable in advance, will be charged at the discretion of the University for each Final Examination taken at a date other than the originally scheduled date. The University does not charge a fee for scheduled tests or final examinations. Students who are unable to take a test when scheduled must consult with the instructor for that course’s make-up policy. Students who are unable to take the final examination when scheduled must take it within two weeks following the start of the next semester, and must meet with their academic advisor for make-up testing arrangements.

Portfolio Assessment Fee: Students applying for Credit for Prior Learning will be charged a \$50 Portfolio Fee at the time their portfolio is submitted or validation test is taken, if applicable. Any subsequent request for an assessment for additional credit will result in another \$50 portfolio fee. If credit is awarded, an Academic Credit Fee of \$75 per credit hour will be charged for each course for which academic credit is awarded in this manner.

A Lab Fee of \$100.00 per semester is charged for each course a student may be enrolled in which contains a laboratory component, including required computer laboratory time.

Students who withdraw or are dismissed from the University during any semester must submit a re-entry fee of \$55.00 upon a request for re-enrollment.

Graduating students will receive one unofficial transcript free of charge. Students requesting an additional copy of official transcripts from MAU will be charged a nominal \$10.00 fee. Subsequent requests cost \$15.00 per copy, and rush requests, meaning a request for receipt of an official transcript to be provided within less than three (3) days cost \$20.00 per copy. This fee includes charges associated with the delivery of the official transcript from MAU to another school or other requesting entity within the continental U.S. Students requesting that official transcripts be delivered outside the continental U.S. must pay the actual fees charged by the carrier in full in advance.

Payments made through credit or debit cards will be assessed a convenience fee of 3.5% which is added to the total amount of the transaction. This convenience fee is not refundable.

Students are responsible for the purchase of all required books and supplies in addition to tuition costs. Books and supply costs are estimated at \$600.00 per semester; however, this cost can vary based on course load or specific course requirements.
