A beneficiary attending school for the approximated 8 months of the fall and spring semesters will earn approximately that may month of benefits. That is approximately \$9,768 for a 100% eligible Chapter 33 or Chapter 31, approximately \$16,976 for Chapter 30, approximately \$10,120 for Chapter 35, and approximately \$3,176 for Chapter 1606. This is generally insufficient to cover the full cost of living while attending school.

Chapter 31 and Chapter 33 benefits offer differing ways to providing funding for books and supplies. Chapter 33 will issue a book stipend prior to each term while Chapter 31 provides all funding for books and supplies.

Other benefits such as Chapter 30,35, and 106 provide no tuition assistance or assistance for books and supplies.

For further information regarding your specific federal benefit please contact our office or you may find information on VA.gov. VA educational benefits provide a monthly stipend dependent on rate of pursuit and benefit type. These stipends are based on current data and fluctuates by region. For the fall of 2021, the current calculation for benefits is as follow and based on full time and resident enrollment in undergraduate or graduate programs.
